Total Investment Example: The total investment for two licenses of MarketSharp^m Std is \$140 per month.

¹**Optional Modules Include:** Proposals, Commission & Job Cost, Production, Service and QuickBooks® Web Connector (^mPro includes all modules)

²**Additional Disk Space:** Disk space, backup disk space and bandwidth to upload and download data...

Add'l Data Storage (database): \$5/100 MB/month, \$12/500 MB/month, or \$20/1 GB/month

Add'l File Storage (documents & attachments): \$4/1 GB/month or \$36/10 GB/month

³**Multi-Database Management (M-DM):** This feature allows you to keep multiple databases for different locations and/or divisions separated while also giving you the ability to seamlessly log into any location/division, share employees, share lead sources, and share products among those locations. This feature also gives you the ability to roll-up reports on all locations combined.

⁴**Initial Setup:** Includes installation and configuring of the application and database for your company on our web servers. Your administrative logon credentials will be emailed to you after the setup is complete.

⁵**Mobile:** Full verison MarketSharp^m licenses can be used for Mobile log-in, but note that Mobile licenses will be consumed first.

Data Conversion: Convert your existing data for use within MarketSharp^m...

Data Conversion Services: \$100 per hour.

Computer Requirements: Access to internet service using Internet Explorer 8 or greater or Firefox 3.6 or greater.

***Important Feature:** The pricing is based on the number of "concurrent (shared) licenses" rather than "user accounts". Concurrent or shared license means the total number of users logged in at any one time. (For example: You may have 7 employees requiring access to MarketSharp^m, but you may only need to purchase 4 licenses as only 4 out of 7 users will be logged in at once.)
